

# Major Pentatonic Scale

## G - Open

## Scale Practice

Keep a steady rhythm and start slowly.

- 1) Start on low root note, play up one octave to middle root note.  
Start on middle root, play back down to low root.

- 2) Repeat same exercise up an octave: start on middle root, end on top root.  
Start on top root, play back down to middle root.

- 3) Start on low root note and play all the way up the scale, back down to root.  
Start on top root note and play all the way down the scale, back up to root.

Here are 8 simple pentatonic lines (a-h) within 2 different "zones" of the scale.  
Memorize each line so you can look at your fret hand.

**1a)** **b)** **c)** **d)**

**e)** **f)** **g)** **h)**

**2a)** **b)** **c)** **d)**

**e)** **f)** **g)** **h)**
